COLD PRESSED OILS

OILSEEDS

ABOUT US

Our mission

By closely following innovations and developments in the sector, we aim to utilize the advantage of having a strong and wide supply network and an expert team in the most efficient way. We strive to produce the most accurate product under the best conditions and provide our customers with always accurate, reliable, and timely information through our 100% traceability system. By being constantly in the field and making meaningful touches, we create significant increases in quality and profitability ratios, preparing our customers for the future as a leading company in our field.

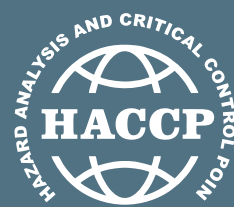

Our vision

To become a permanent and stable organization in the sector that is respected at world-class standards by continuously increasing our customer portfolio and profitability day by day without compromising on quality.

Who We Are

We produce for you with our belief in organic agriculture and our respect for nature. We work harder every day to bring you the healthiest, most natural and highest quality products through the organic projects we carry out together with our farmers. We carefully process the unique seeds grown in Turkey and present them to you. As EKORA TARIM, we seek perfection by keeping this entire process under control at all times with our traceability system. Our aim is to become a permanent, stable, world-class, respected organization in the sector by increasing our customer portfolio and profitability day by day without compromising on quality. We believe that this is achieved through the highest quality raw materials and products. We are ready to supply the product you want at the right time and price.

CERTIFICATES

COLD PRESSED OILS

Cold-pressed oils are obtained from raw materials supplied from our own projects at minimum temperatures in our GMP, HACCP, ISO 22000, IFS, Kosher, and HALAL certified production facility, preserving their natural vitamins, minerals, and enzymes.
